CLASSIC SIS

Workday Student LIVE; no action needed from most users until March 11.

L1 users continue to have access to L1 capabilities.

MAR11

System ready for Faculty and Staff users!

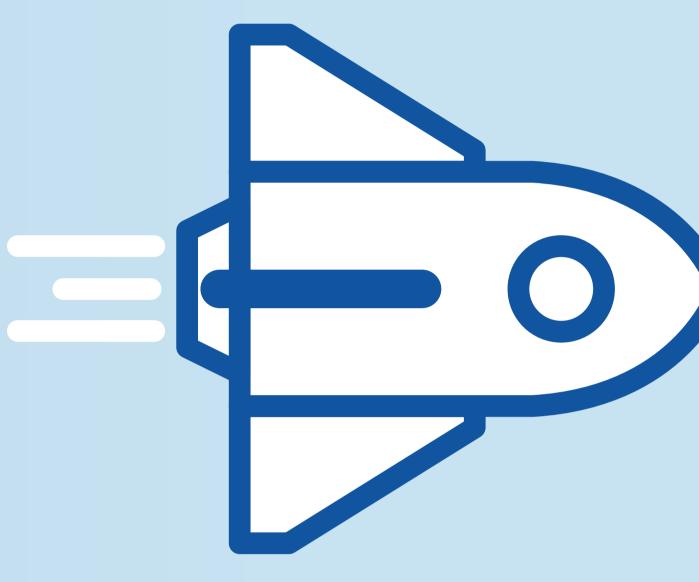

All staff and faculty users can perform tasks in the system based on their individual security roles for activities related to 2024W Session.

Ecosystem Applications deployed.

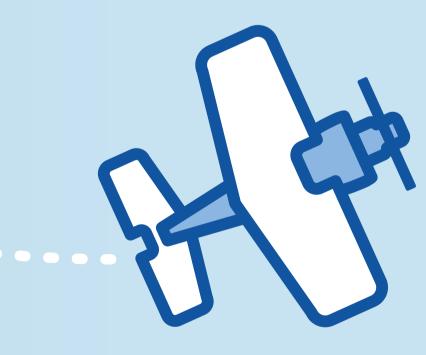

Training for L2 capabilities continues.

System ready for Students!

Workday Student accessible to student users for activities related to 2024W Session.

2024-2025 ACADEMIC YEAR

Classic SIS still in use by students, staff and faculty users for activities related to 2023W and 2024S Sessions. More info: irp.ubc.ca/coexistence

Data Catch-up Period underway!

Ahead of Launch 2, a data catch-up between Classic SIS and Workday will be underway between Feb 23 and March 10 to ensure data is ready to be used on March 11. Most users don't need to take any action and impacted users will be notified.
