IRP Student Co-Lead Sponsor

# IRP Student

**A once-in-a-generation leap to a new foundation for supporting UBC's academic mission**

**A rare opportunity to be part of a dynamic team that will deliver a transformational future for UBC, opening the door to institutional innovation and individual career development**

**Related UBC Strategic Plan Goals:**

*Inspire and enable students through excellence in transformative teaching, mentoring, advising and the student experience*

*Achieve agility in academic support and administration through thoughtful systemic change and simplification*

# Required Capabilities

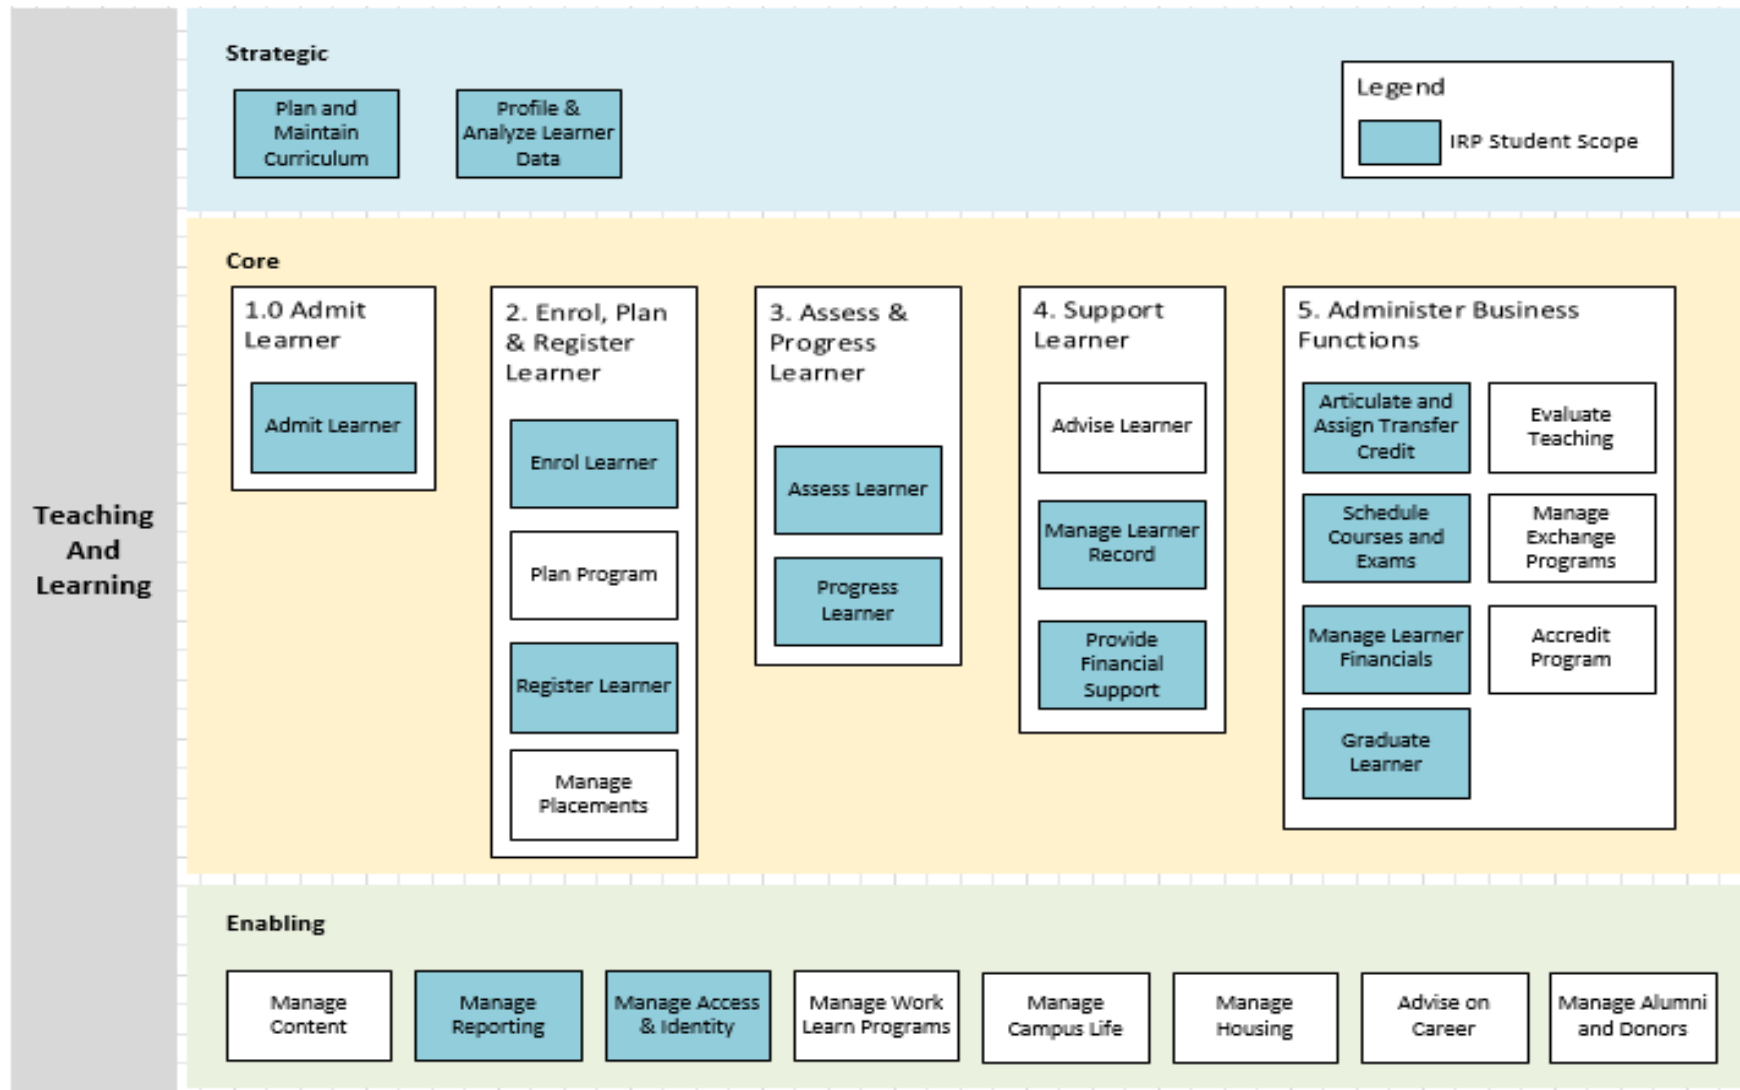

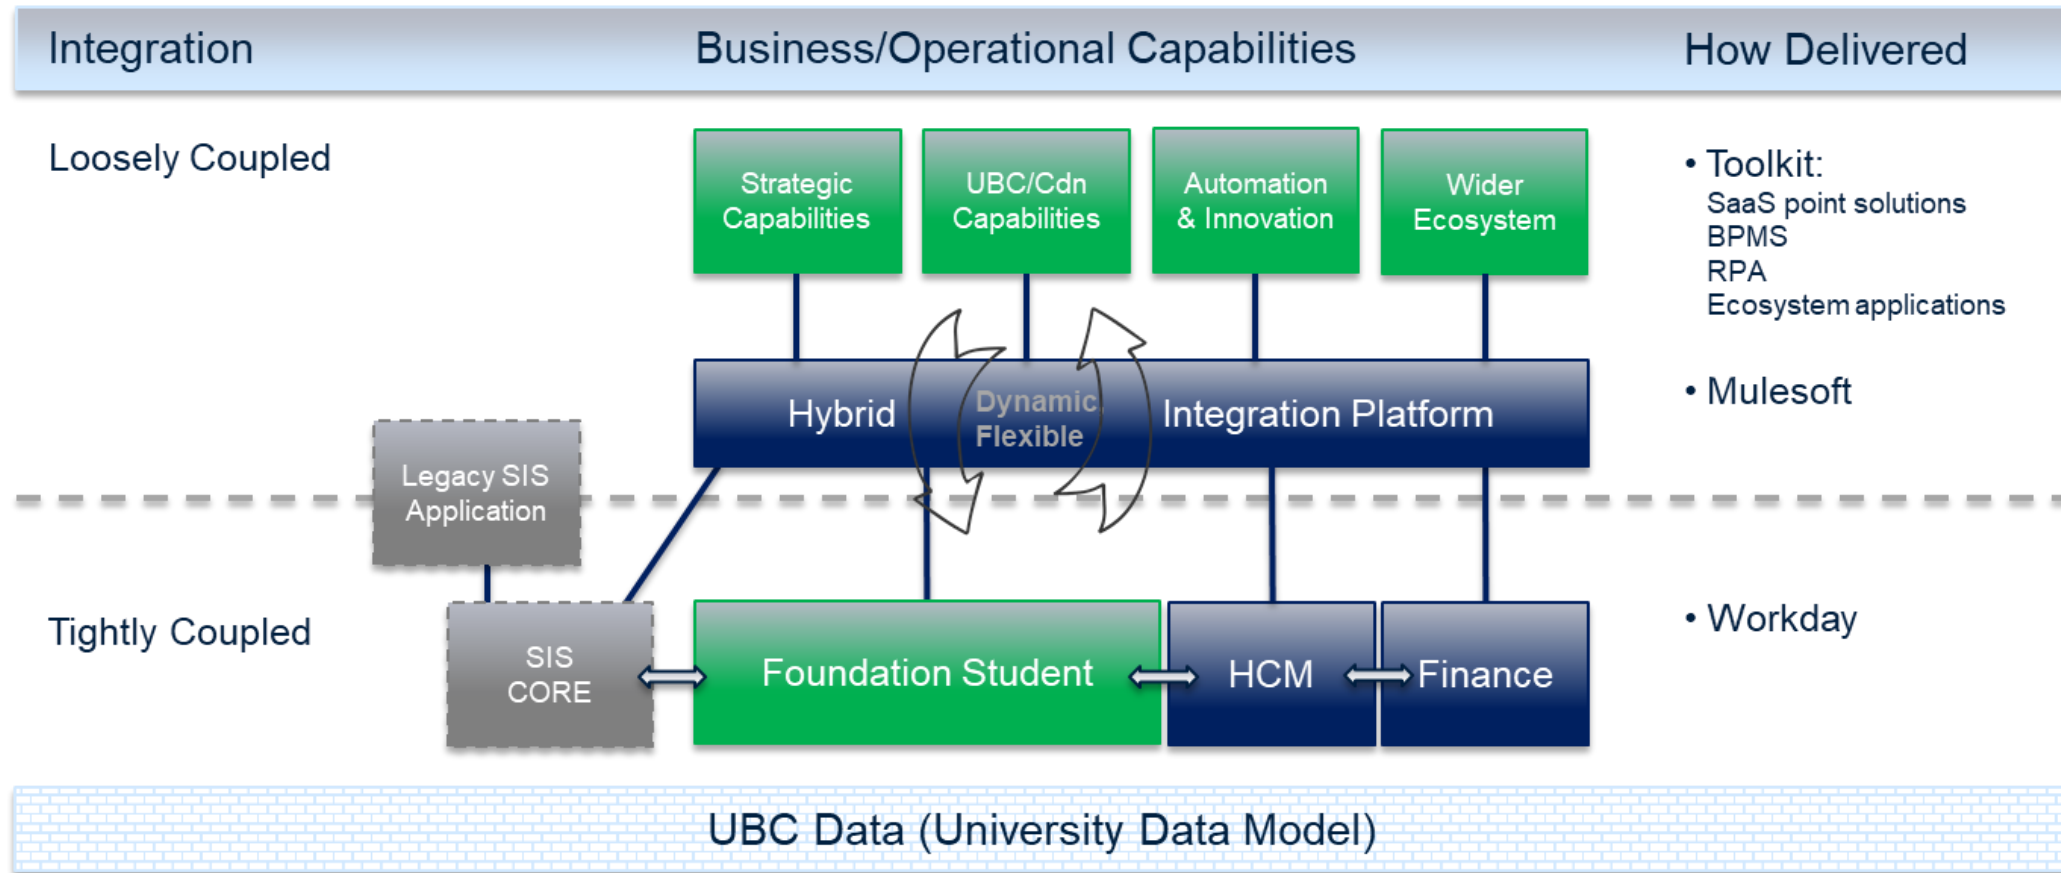

Illustration shows required Student ecosystem capabilities at a high-level

IRP Student foundation scope is shown in blue

# Student Ecosystem Solution

Achieving Student objectives will require an ecosystem approach with a high degree of business process and external system to system integration, as well as a consolidated cross-platform user experience

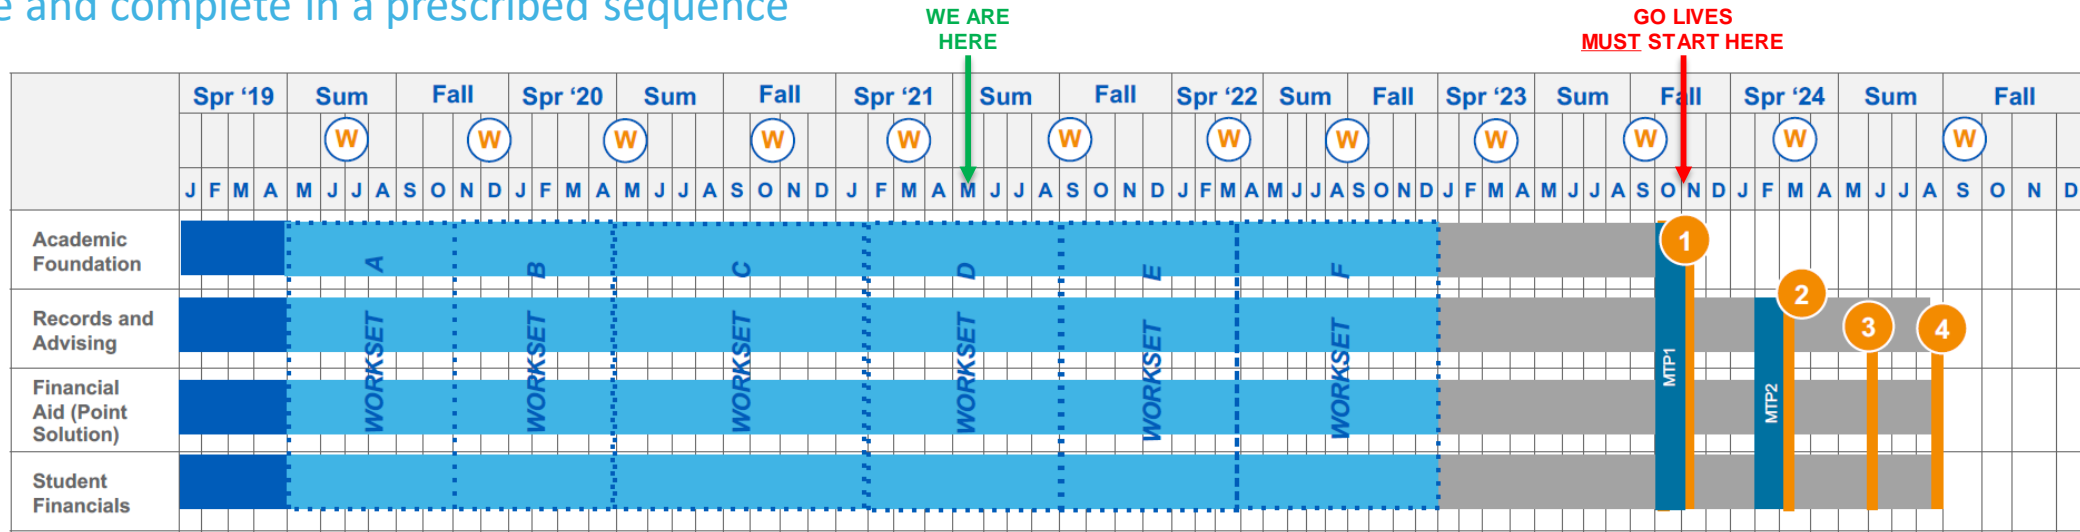

*GAPS: Resolved by Technology, Transformation, and the Evolution of Core Solutions*

# Timeline

Anchored on Workday deployment, we'll have multiple go lives that **must** start at a specific point in the academic cycle and complete in a prescribed sequence

  - End-of-term Processing
  - Award Disbursement

- Plan
- Architect / Configure & Prototype (WORKSETS)
- Test
- Deploy (MTP1: Milestones 1 and 2 configuration Moves to Production tenant MTP2: Milestones 3, 4 and 5 configuration Moves to Production tenant)**
- Business Function Milestones** When UBC starts using the Workday feature and completing business process transactions in Workday

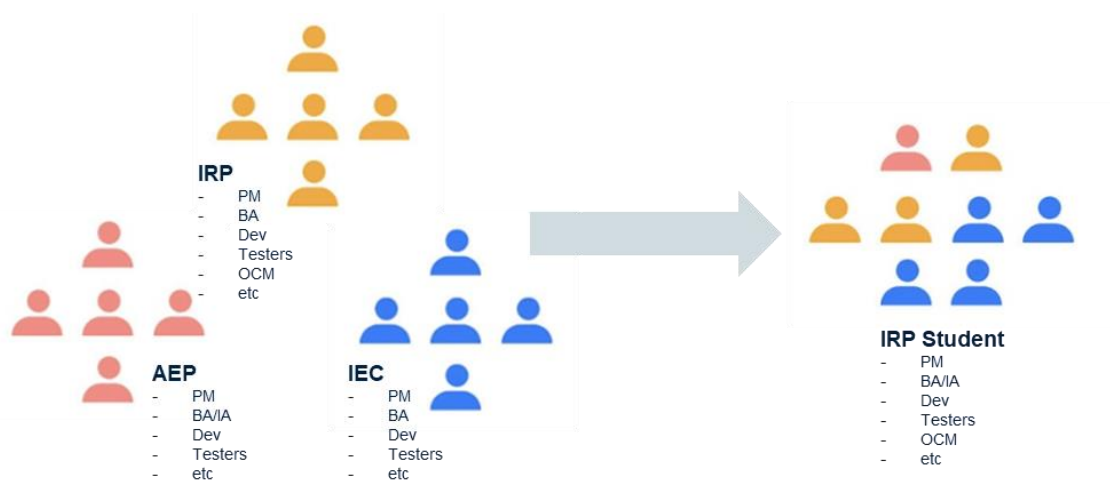

Workday Feature Release

Workday Confidential

# One Program

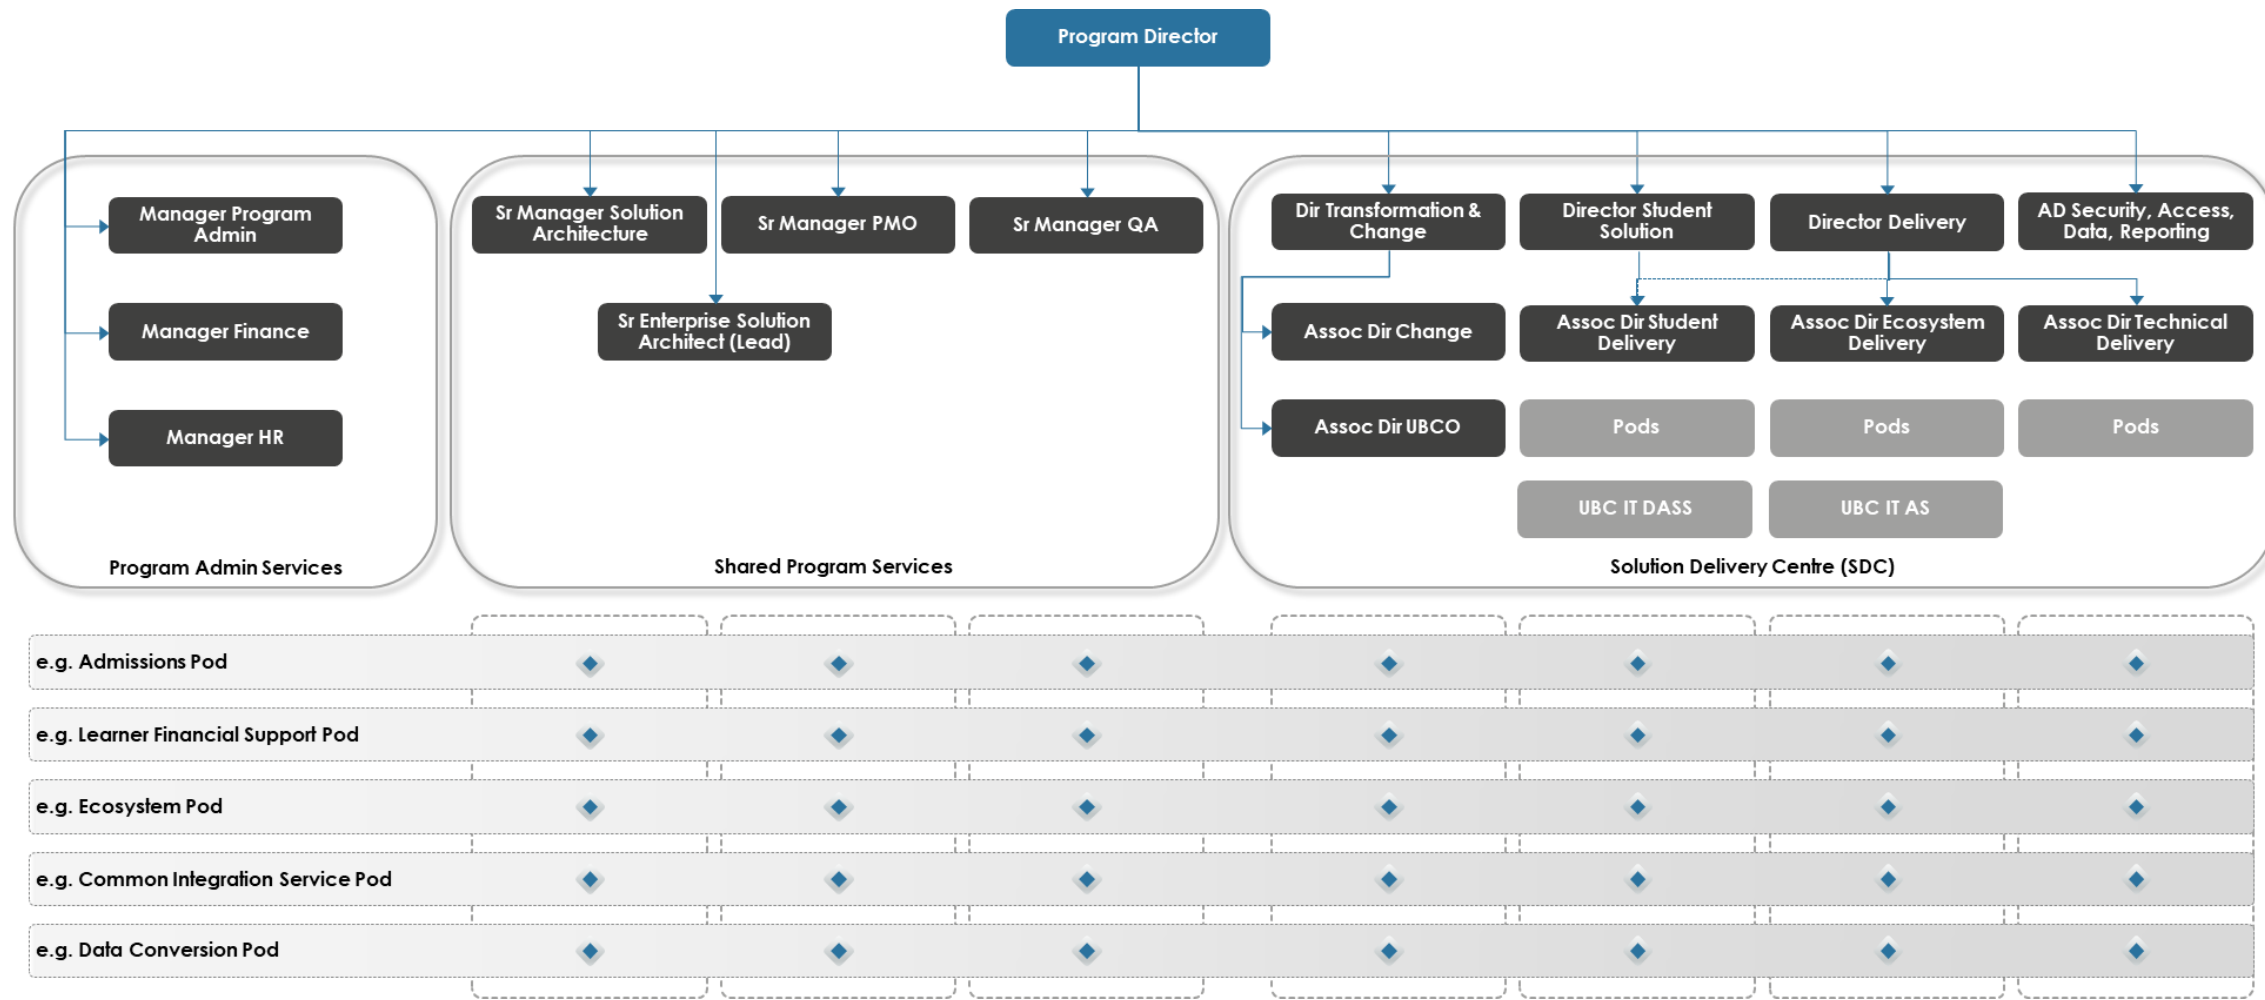

We are one integrated team dedicated to delivering a transformed Student ecosystem and supporting the UBC community throughout the transition

- Based on lessons learned from IRP R1, IRP Student has adopted a **One Program** model
- We are organized in cross-functional teams that are aligned across end-to-end business capabilities
- Benefits of the approach include the resolution of many issues related to schedule, conflicting priorities, and communications
- The new model emphasizes opportunities for UBC staff, minimizing the need for consultants and contractors
- The One Program approach is focused on a culture of collaboration, openness, adaptability, and excellence

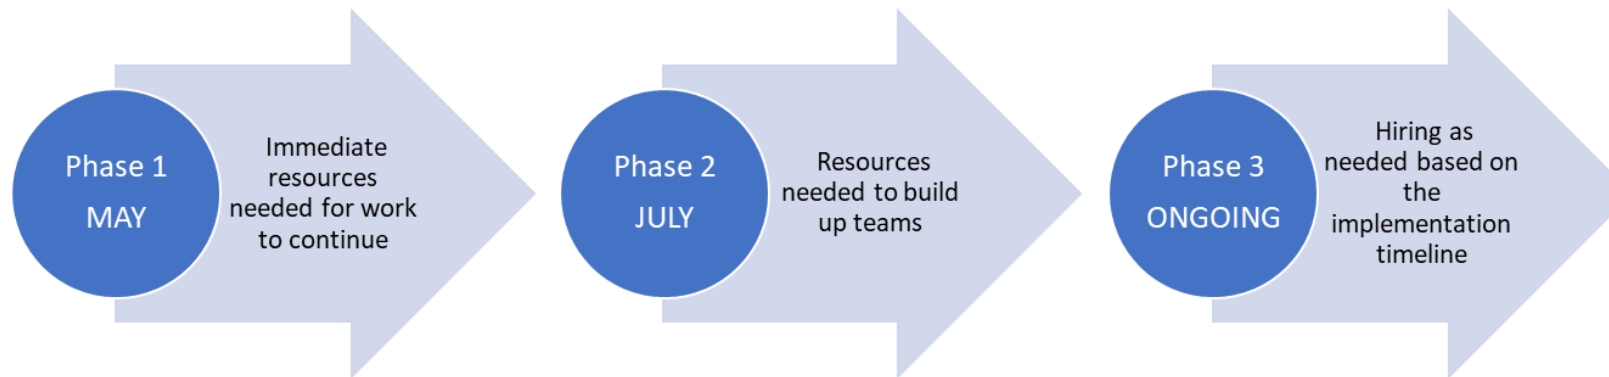

# IRP Student Structure

# IRP Student Ramp Up

- 100+ new positions:
  - Project managers (I, II and Senior)
  - Business analysts (I, II and Senior)
  - Developers
  - Integration analysts
  - Test leads and analysts
  - Change management and communications leads and specialists
  - Training specialists
- Most will be ongoing positions funded through 2024
- Secondments can be arranged where possible
- Postings will begin appearing in Workday soon
